**The partnership aims to develop circular materials for future automotive use, meeting 2030 end-of-life-vehicle requirements and original equipment manufacturers' circular economy targets**

Automotive supplier Yanfeng and Trinseo, a specialty material solutions provider, have announced a collaboration to develop circular automotive interior materials. Their joint effort aims to meet the 2030 end-of-life-vehicle requirements and original equipment manufacturers' goals concerning circular economy targets. The partners plan to jointly design, produce and commercialize circular materials for future automotive uses, with a focus on advanced mechanical recycling and dissolution process technology.

“By leveraging our extensive knowledge with Trinseo's technical expertise, we accelerate the development of circular automotive materials and offer our customers benefits along the entire value chain. Together we can provide recycled, high-quality solutions tailored to the automakers' needs,” said Gunnar Büchter, vice president of global sustainability at Yanfeng. “This new partnership is a major step in our commitment to sustainability and part of the journey in realizing our company’s sustainability goals,” he said.
